Postgraduate Studies at HKUST

Founded in 1991, The Hong Kong University of Science and Technology (HKUST) is a young, dynamic and internationally renowned research university. As an innovator in research and teaching, HKUST is the only research-intensive university in Hong Kong with a focus on science and technology. It is also the only institution in Hong Kong that has an all-PhD faculty from its inception.

Its groundbreaking work in science, engineering, business, humanities and social science is successfully pushing back the boundaries of the information age. HKUST's world-class, multinational faculty all hold PhD degrees from renowned universities in North America, Europe and Australasia. Most senior faculty members have taught in leading international research universities, or worked in major industrial laboratories.
